

CHALET SERIES

63, 81 AND 90sqm Living area

ILLUSTRATION SHOWN WITH OPTIONAL 3m WIDE VERANDAH

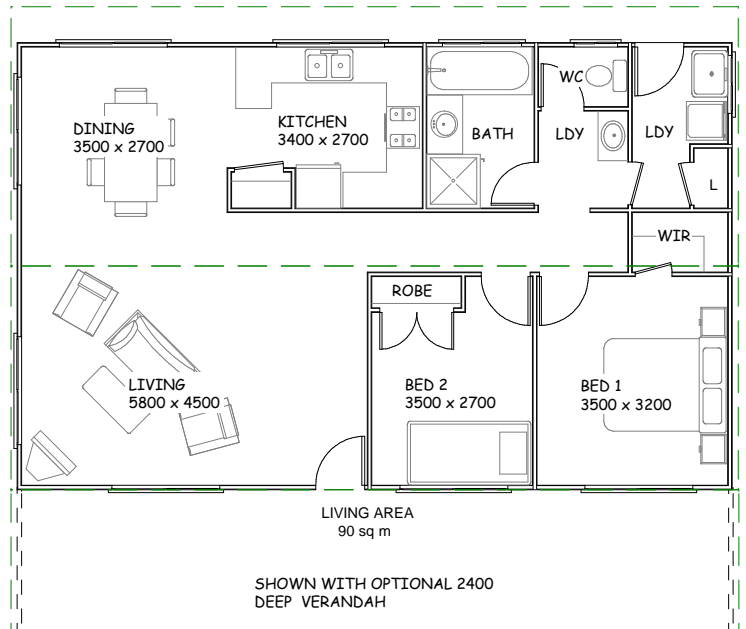

Purposely simple and rectangular in shape, these easy-living homes make use of every millimetre of space, creating larger than average living areas for units of this type.

Of course, our main aim is to find a floor plan and external appearance that meets your particular needs, so perhaps you could spend a few moments amending some of the plans along the direction of your thinking. Because the Statewide System allows us to move walls and organise space however you wish, it ends up being good fun.

Advantages for you are;

1. Superior use of natural light saving on energy costs.
2. Better cross-flow ventilation.
3. Quick and easy site erection due to the simple roof structure.
4. Easy to add-onto in the future if desired.
5. No internal load bearing walls, meaning the design can be exactly as you want it.
6. Efficient to manufacture therefore more economical.
