

THE ENTERTAINER MK 4

227sqm Living area + Verandahs

How many Entertainers are we planning to do? We're not sure yet as we think every great home is also a good entertainer. There are bound to be few more down the track as many of our existing clients have adapted the original Entertainer to suit their needs and sense of style, while prospective clients continue to do so.

That said The Entertainer Mk 4 is a great example of what can be done with a few extra square metres. Lets take the tour. Four very well sized, well lit bedrooms with built in robes, great theatre room, spacious activity area, and an absolutley cavernous open plan living area with a space enough to build the kitchen of your dreams.

Moving outside through the four panel sliding doors we have a 5.4m deep Al Fresco that links up to the 3m deep verandahs that wrap around this magnificent Statewide Building Solutions home.
